Type: RE-LICENSE INSPECTION
Date: 22-AUG-2022

3.1(c)(1)

Housing facilities, general.

The beige tenderfoot flooring in two of the outside section of the pens is missing coating which exposes sharp rusty metal underneath. Also one of the sections is comp[rised of two sections, one section is tilted which leaves a gap approximately 1&1/2 inch high in front of the door. This gap and the exposed rusty metal can cause injury to the dogs. The rust also prevents adequate cleaning of the flooring in the pen.

The tenderfoot sections should be repaired or replaced to ensure the pens have safe flooring that can easily be cleaned.

This is a 1st Re-License Inspection for a Class A license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by October 21, 2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
