Type: RE-LICENSE INSPECTION
Date: 27-JUL-2022

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The dewormer pyrantel pamoate on the storage shelf ready for use was expired (facility disposed of the expired product during inspection). Expired medications might not be as effective or can become unsafe to use in animals. For the health and safety of the animals, ensure that only non-expired medications are stored and used per the attending veterinarian's directions.

3.13(a)(3)

Veterinary care for dogs.

The facility has a written program of veterinary care approved by the attending veterinarian (AV), however some additional detail is required in the written program:

-A plan for sampling of parasites (heartworm/blood parasites and intestinal parasites) was not described in the written program.

-An approved schedule for treatment of intestinal parasites in the adult dogs that describes the medication to be used and how often was not in the written program.

Written sampling and treatment plans for blood and intestinal parasites at the facility that are approved by the AV helps

Inspection Report

ensure that a plan for maintaining healthy animals is in place. Ensure that the written program is updated and approved by the attending veterinarian.

This is a 1st Pre-License Inspection. The inspection and exit briefing were conducted with a facility representative.

All items must be in compliance within 2 more inspection(s) by 9/25/2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Pre-License Inspection. Conducting regulated activities without a valid USDA license is a violation of the Animal Welfare Act.
