Type: ROUTINE INSPECTION
Date: 04-OCT-2022

3.13(b)(3)

Veterinary care for dogs.

The date(s) of the last parvovirus and distemper vaccines administered were not available for all the adult dogs. Failure to list the names and dates of all vaccines and treatments administered makes it difficult to access the animal care program. Licensee must ensure that medical records are kept with the names and dates of all vaccines and treatments administered to the adult dogs. Correct by October 15, 2022.

This inspection and exit interview were conducted with the licensee.
