2.1(b)(1)

Requirements and application

The facility failed to notify Animal Care that they closed a business site. The inspector arrived at Site 003 to find the store empty and the space available for rent. This is a substantial change in business locations and requires notifying Animal Care 90 days prior to making the change.

It is important that Animal Care is kept up to date regarding sites that have been opened and closed so that inspectors can adequately inspect licensed facilities and their regulated animals.

Correct by October 12, 2022 by notifying Animal Care at animalcare@usda.gov at least 90 days prior to any change in name, address, management, locations, activities, number or type of animals.

2.126(b)

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process at 11:50 AM on 06 October 2022. Inspector arrived at site and found a "Retail Space for Lease" sign in the window and an empty store front.
