#### 3.13(a)(1)

#### Veterinary care for dogs.

\* The last recorded scheduled visit by the attending veterinarian was on 11/22/21. Regularly scheduled visits are important to determine if all aspects of animal care (nutrition, health, environment, water and air quality, etc.) are being provided to the dogs. The licensee must have regularly scheduled visits, not less than once every 12 months, by the attending veterinarian to all premises where animals are kept, to assess and ensure the adequacy of veterinary care and other aspects of animal care and use. Correct by 2/19/23.

#### 3.13(a)(2)

#### Veterinary care for dogs.

\* The last recorded physical examination for 190 adult dogs was on 11/22/21. Physical examination of every dog on the premise is necessary to evaluate each dog for its overall internal and external physical body condition. In addition, the physical examination will be able to evaluate the overall condition and health of the hair coat, feet, ears, and eyes. The licensee must have a complete physical examination from head to tail of each dog by the attending veterinarian not less than once every 12 months. Correct by 2/19/23.

## **Inspection Report**

Inspection Report					
* The last recorded date for annual rabies vaccination, heartworm and fecal float testing for 190 dogs was done on					
11/22/21. Annual rabies vaccinations, heartworm and fecal float testing are important for the health of the animals.					
Heartworm and fecal float testing is done to ensure that there are no active internal parasites. The licensee must ensure					
that all dogs are receiving vaccinations for contagious and/or deadly diseases of dogs (including rabies, parvovirus and					
distemper) and sampling and treatment of parasites and other pests (including fleas, worms, coccidia, giardia, and					
heartworm) in accordance with a schedule approved by the attending veterinarian. Correct by 2/19/23
