Type: RE-LICENSE INSPECTION
Date: 09-NOV-2023

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

**A review of records at the time of inspection indicated the attending veterinarian had not visited the facility since 2019. The licensee indicated the animals are taken to the veterinary clinic for routine visits, however, no regularly scheduled visits had been made by the attending veterinarian since 2019. The attending veterinarian should review the written program of veterinary care in addition to performing regularly scheduled visits to the facility in order to ensure the health and well-being of the animals according to established veterinary standards.

2.134(b)

Contingency planning.

**There was no written contingency plan available for review at the time of inspection. Written documentation of the contingency plan should be maintained and reviewed on an annual basis in order to provide for the humane handling and care of the animals in the event of an emergency or disaster. Contingency plans and any applicable documentation should be available to APHIS representatives during the unannounced inspections.
