

Inspection Report

John D Riehl Jr
5190 South 200 West
Wolcottville, IN 46795

Customer ID: **6012881**
Certificate: **32-A-0967**
Site: 001
John D Riehl Jr

Type: ROUTINE INSPECTION
Date: 13-OCT-2023

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The licensee did not provide the inspector with a copy of the program of veterinary care (PVC). When the veterinarian listed on some of the paperwork was called he said that he has not been to the facility since June of 2022 and recently informed the licensee that he would not be returning to the facility and does not consider himself the attending veterinarian.

Failure to provide a PVC does not allow USDA inspectors to verify the adequacy of the care being provided to the animals or confirm the facility has an attending veterinarian to provide guidance on appropriate veterinary care for all aspects of animal health and well-being.

Each dealer shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

Correction Date: October 27th, 2023

2.50(a)(2)

Time and method of identification.

None of the weaned puppies had means of official identification.

All dogs, including puppies, must have distinctive identification so that animals can be identified in the case of an animal disease outbreak, and to identify specific animals that may require routine or veterinary care. A class "A" breeder shall identify all dogs under his control or on his premises, whether held, purchased, or otherwise acquired. All dogs and puppies held at the facility must have a distinctive identification.

October 20th, 2023

This inspection and exit interview were conducted with a facility representative.
