2.75(a)(1)(iv)

Records: Dealers and exhibitors.

The records of sales for the puppies (APHIS 7006) did not include that name and address of the persons that the puppies were sold to. Accurate record keeping is crucial for ensuring a thorough inspection and needed to rapidly identify and trace animals in a potential disease outbreak. Each dealer shall make, keep, and maintain records or forms which fully and correctly disclose the information in 2.75(a)(1)(i) through 2.75(a)(1)(ix) for each dog purchased or otherwise acquired, owned, held, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that dealer. The applicant must ensure accurate records are created and maintained for all dogs at the facility.

Correction date: October 31st 2023

3.1(e)

Housing facilities, general.

There was a single closed bag of dog food that was sitting on the ground and leaning on the wall. Supplies of bedding and food kept on the floor can be spoiled, contaminated, and/or infested with vermin, creating potentially hazardous situations for dogs. Supplies of food and bedding must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. Supplies of bedding must be stored off the floor to allow for cleaning underneath and around the supplies.
