Sandy Acres Kennel
0540 E 300 N
LaGrange, IN 46761

Customer ID: **508632**
Certificate: **32-A-0848**
Site: 001
Sandy Acres Kennel

Type: ROUTINE INSPECTION
Date: 05-OCT-2023

2.40(a)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was a strong fecal odor noticeable when entering the kennel. There was a layer of dust on some of the kennel structure. The licensee stated to the inspector that sanitizing was not being done every two weeks. Enclosures in use must be sanitized every two weeks by washing all soiled surfaces with a soap solution and following with an appropriate disinfectant or using a combination detergent/disinfectant. This sanitization is needed to control diseases and odors in the kennel to keep the dogs healthy and comfortable. Sanitize the kennel every two weeks.

Correct by: 10-9-23

3.11(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

The licensee has not yet administered heartworm preventative to all dogs in the kennel monthly this year as dictated by the written program of veterinary care written by the attending veterinarian. The licensee is not doing preventative health checks on all dogs in the kennel monthly as dictated in the program of veterinary care as written by the attending veterinarian. Each dealer shall ensure that the attending veterinarian has the appropriate authority to ensure the provision of adequate veterinary care and oversee the other aspects of animal care and use. Failure to provide this authority could lead to health issues for the dogs in the kennel. Follow all written guidance in the program of veterinary care.

Correct by: 10-12-23.

This inspection and exit interview were conducted with a facility representative.
