KAREN AND DOUGLAS BRUMM

Type: ROUTINE INSPECTION
Date: 25-OCT-2023

3.11(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

The licensee does not sanitize the outdoor housing floors, dog houses or caging for 30 adult dogs every 2 weeks. The licensee states sanitizing is done approximately two times per year. Failure to sanitize enclosures may increase the risk of disease hazards towards the dogs.

Used primary enclosures and food and water receptacles for dogs must be sanitized at least once every 2 weeks and more often if necessary to prevent an accumulation of dirt, debris, food waste, excreta, and other disease hazards. Hard surfaces must be sanitized using one of the following methods: live steam under pressure or washing with hot water (at least 180° F) and soap or detergent. The licensee must clean and sanitize the primary enclosures and ensure that all aspects of the enclosure are maintained in a clean and sanitized condition in order to support the health of the dogs. To be corrected by: 8-November-2023

This inspection and exit interview were conducted with licensee.
