Time and method of identification.

The licensee is not properly identifying puppies that are less than 16 weeks old. Sixteen puppies that were from three separate litters did not have any form of identification. Appropriate identification of dogs is necessary to meet recordkeeping requirements for inventory, disposition, transport, and healthcare documentation. The licensee must properly identify puppies with an acceptable form of identification, which include a cage card (if litters are not comingled), a microchip, a collar and tag, or a plastic-type collar with the required information legibly written. To be corrected by December 30, 2023.

This inspection and exit interview were conducted with the licensee.
