Type: ROUTINE INSPECTION
Date: 04-DEC-2023

3.13(a)(3)

Veterinary care for dogs.

The adult dogs at the facility are not up to date on distemper and parvovirus vaccinations. The last recorded date the vaccinations were given was January 4, 2021. The Program of Vet Care prescribes for these vaccinations to be given yearly. Distemper and parvovirus are contagious diseases of dogs that may cause vomiting, anorexia, dehydration, neurological symptoms, lethargy, and possibly death. It is also important for nursing mothers to be up to date on these vaccinations as they will pass immunity to the puppies through their milk. Correct by ensuring vaccinations for contagious and/or deadly diseases of dogs (including distemper and parvovirus) be performed in accordance with a schedule approved by the attending veterinarian (yearly). Correct by: January 1, 2024.

This inspection and exit interview were conducted with the licensee.
