CARTHAGE, TN 37030

Customer ID: **331961**

Certificate: **63-A-0189**

Site: 001

ALLISON HOLLOW KENNEL

Type: ROUTINE INSPECTION

Date: 18-OCT-2023

---

### 3.1(e)

#### Housing facilities, general.

Substances that can be toxic to dogs are currently being stored on open shelves in two areas. Spray bottles of cleaning chemicals are hung on a shelving unit in the indoor dog housing area just a few feet away from dog enclosures. Bottles and cans of paint, fly bait, pest sprays and other chemicals are being stored on a shelf above run number 1 in the indoor portion of the sheltered housing building. These substances may be toxic to dogs if they come in contact with them or ingest them if the bottles/cans were to fall into or leak into the dog enclosures.

Substances that are toxic to dogs but are required for normal husbandry practices must be stored securely such as in cabinets if in the animal areas or may be stored outside of the animal housing areas. Correct by 10/21/23.

This inspection and exit interview were conducted with facility representatives.
