Type: ROUTINE INSPECTION

Date: 11-JAN-2024

2.75(a)(2)

Records: Dealers and exhibitors.

During inspection it was found that the licensee was not using the Record of Acquisition and Dogs and Cats on Hand (APHIS Form 7005) or the Record of Disposition of Dogs and Cats (APHIS Form 7006). An accurate animal inventory is required so that USDA inspectors can ensure all dogs are accounted for and receiving adequate veterinary care. Records of animal acquisition and disposition, including births and deaths, must be kept by the facility to ensure animals can be traced in case of an animal disease outbreak and to ensure there are not high mortality rates in the animals. An accurate inventory and records of animal acquisition and disposition using Forms 7005 and 7006, including births and death, must be maintained by the facility.

To be corrected by January 19, 2024

This inspection and exit interview were conducted with a facility representative.
