2.75(a)(1)

Records: Dealers and exhibitors.

The facility does not currently have an inventory of animals on hand nor acquisition records for animals acquired. Improper record keeping does not allow for a complete inspection of the facility and does not facilitate proper tracking of animals. Complete acquisition records containing all information required by the Animal Welfare Act Regulations are necessary to be able to accurately track animals being used in regulated activities to ensure their legal acquisition, proper care, age of the animals, and humane transportation. This requirement applies to all regulated animals purchased or otherwise acquired, owned, held, leased or otherwise in possession of or under control of the licensee, including any offspring born of any animal while that animal is in his or her possession or under his or her control, and all regulated animals transported, sold, euthanized, or otherwise disposed of by that dealer. Correct by April 17, 2024.

This inspection and exit interview were conducted with a facility representative.
