Type: ROUTINE INSPECTION

Date: 24-JUN-2024

3.13(a)

Veterinary care for dogs.

3.13(a)

The last kennel visit and head to tail exams for each dog that includes the heartworm and fecal testing were last completed by the attending veterinarian on April 28, 2023, which exceeds the required 12-month timeframe. Regularly scheduled visits to the kennel by the attending veterinarian ensures the adequacy of veterinarian care and other aspects of animal care. Failure to have each dog examined at least once a year can result in delay of treatment and diagnosis for disease, illness, or injury. Correct by having the attending veterinarian complete a kennel visit and head-to-tail exams with the required testing. Schedule future visits and exams not less than once every 12 months.

Correct by July 15, 2024.

This inspection and exit interview were conducted with facility representatives.
