#### 2.75(a)(2)

##### Records: Dealers and exhibitors.

The licensee was not able to produce an up-to-date APHIS form 7005 (Dogs on Hand) during the inspection. Thirty-eight dogs were missing from the form. Properly completed acquisition records are necessary for identification of dogs to facilitate record-keeping requirements for inventory, disposition, transport, and healthcare. The licensee must update the Record of Acquisition and maintain the record on a regular basis so that it always has accurate information regarding acquisition, identification, and disposition for all dogs. TO BE CORRECTED BY JUNE 1, 2024.

#### 3.1(c)(3)

##### Housing facilities, general.

The licensee is using cloth towels as additional wind breaks over the metal doggie doors in the sheltered building. The towels have excess dirt and grime on them and the licensee stated that she is not routinely cleaning or replacing these towels. Dirt and grime harbor organisms that can cause disease in dogs. The licensee must ensure that surfaces that come in contact with the dogs are cleaned and sanitized at least every 2 weeks or more often as necessary to satisfy generally accepted husbandry standards and practices. TO BE CORRECTED BY JUNE 1, 2024.

This inspection and exit interview were conducted with the licensee.
