Type: ROUTINE INSPECTION
Date: 02-MAY-2024

3.6(a)(2)(i)

Primary enclosures.

The fencing material used as skirting for the outside housing portion of the sheltered housing for the Cavalier Spaniels has come loose in the corner near the building. The end of the wire fencing material is loose with sharp points present at the edge. The sharp points may injure the puppies and dogs housed in the enclosure. Enclosures must be maintained so that they have no sharp points or edges that could injure the dogs.
Correct by 5/5/24.

3.11(c)

Cleaning, sanitization, housekeeping, and pest control.

The large exercise yard for the Labrador Retrievers is in need of mowing and weed removal. The grass and weeds are up to a foot high and there are sharp pointed thistle type weeds that are two to three feet high. Weeds can provide housing for pests such as ticks or rodents and make cleaning difficult. Weeds, grasses and bushes must be controlled so as to facilitate cleaning and pest control and to protect the health and well-being of the dogs. Correct by 5/16/24.

This inspection and exit interview were conducted with the licensee.
