ANGELA WEAVER

Type: RE-LICENSE INSPECTION

Date: 15-AUG-2024

---

#### 3.3(a) Repeat

##### Sheltered housing facilities.

At the start of the inspection, 10:51 am, the temperature inside the sheltered kennel building registered at 86.9 F. The temperature was rechecked 4 hours (2:51pm), after the initial reading and was recorded at 89.1 F. Excessive heat is a source of stress and discomfort to the enclosed dogs and can result in a variety of health impacts if not corrected. The temperature in the interior portion of a sheltered kennel must not rise above 85F for more than four consecutive hours. The licensee must ensure that interior temperatures are maintained at a safe level for the dogs.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the facility representative.

All items must be in compliance within 2 more inspections or by October 15 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Conducting regulated activity without a valid USDA license is a violation of the Animal Welfare Act.
