

Inspection Report

Daniel Graber
19256 Ferndale Road
Mineral Point, WI 53565

Customer ID: **6012650**
Certificate: **35-A-0506**
Site: 001
Daniel Graber

Type: ROUTINE INSPECTION
Date: 05-AUG-2024

3.6(a)(2)(ix)

Primary enclosures.

On the east side outdoor area, in the middle enclosure, one of the posts by an enclosure divider that the dogs can access has had part of the bottom chewed off. Chewed wood can no longer be cleaned and sanitized effectively and if not repaired can affect the structure. Ensure this post is repaired and maintain posts in a manner that can be regularly cleaned and sanitized.

***Correct by 8/27/2024.

3.13(a)

Veterinary care for dogs.

The facility is following a written program of veterinary care (PVC) that includes regular scheduled visits, a vaccine schedule, heartworm and fecal testing, and other required preventive care but the written PVC is not signed by the attending veterinarian (AV). A signed PVC helps ensure the care schedules in place have been reviewed and approved by the AV. Ensure that the PVC is reviewed and signed by the AV.

***Correct by 8/27/2024.

This inspection and exit interview were conducted with facility representatives.
