Veterinary care for dogs.

No dogs at the kennel have received heartworm prevention since November 2023. The program of veterinary care states that heartworm prevention should be given monthly and year round.
Failure to provide heartworm prevention in accordance to the program of veterinary care greatly increases the risk that dogs will contract heartworm disease.
Vaccinations for contagious and/or deadly diseases of dogs (including rabies, parvovirus and distemper) and sampling and treatment of parasites and other pests (including fleas, worms, coccidia, giardia, and heartworm) in accordance with a schedule approved by the attending veterinarian.
