3.13(a)

Veterinary care for dogs.

The facility has a written program of veterinary care (PVC) that has notes from the attending veterinarian (AV) and has had regularly scheduled visits, physical exams and animal records demonstrating that they currently have an AV, however the written PVC available has not been signed by the AV. The PVC is required to be signed by the AV to help maintain that the procedures and schedules in place are formally approved by the AV. Ensure to work with the attending veterinarian to review and sign the written PVC.

***Correct by September 23, 2024.

This inspection and exit interview were conducted with facility representatives.
