

Inspection Report

Melissa Morris
12240 S Moonlight Road
Olathe, KS 66061

Customer ID: **507415**
Certificate: **48-A-2239**
Site: 001
Melissa Morris

Type: ROUTINE INSPECTION
Date: 26-SEP-2024

3.1(a)

Housing facilities, general.

* Containment fencing attached to the wood gate frame in three outdoor enclosures have become detached along the side and bottom. Closer observation shows a one-to-two-inch gap forming between the fencing and wood gate frame. Six cats are in contact with the affected fencing. Enclosure fencing shall be maintained in good repair to protect the animals from injury, escape and be able to contain the animals securely at all times. Not maintaining the fencing could have a negative impact on the animals. The licensee must ensure housing facilities be kept in good repair, protect the animal from injury and contain the animal securely. Correct by 10/10/24.

3.1(f)

Housing facilities, general.

* A fecal waste accumulation was observed in three outdoor turf mats. Six cats are in contact with the affected turf mats. The licensee stated that the waste was last removed about two weeks ago. Unsanitary conditions, potential odors, fly infestation and disease hazards exist when fecal waste is not removed on a regular basis. This could potentially have a negative impact on the cats. The licensee must provide for regular and frequent collection, removal and disposal of animal wastes in a manner that minimizes contamination and disease risks. Correct by 10/3/24.

This inspection and exit interview were conducted with the licensee.
