Certificate: **32-A-0717**  
Site: 001  
Melvin and Wanda Otto

Type: ROUTINE INSPECTION  
Date: 20-AUG-2024

---

#### 3.1(c)(1)(i)

##### Housing facilities, general.

Pens #3, #5, #7, #9, and #10 containing a combined total of 7 dogs all had pen dividers where the paint was worn and excessive rust was present. These areas cannot be properly cleaned and sanitized. Areas in contact with dogs that cannot be effectively cleaned and sanitized can lead to disease and cause odors. Replace or repair these dividers.  
Correct by: 9/22/2024

#### 3.6(a)(1)

##### Repeat

##### Primary enclosures.

Pens #3, #5, #7, #9, and #10 containing a combined total of 7 dogs all had areas where the floor had been chewed by the dogs. These areas all contained sharp edges and in some case the holes were big enough for the dogs' feet to pass through the flooring. Pen # 10 also had a door that had been chewed causing sharp edges on the door. Pen #3 also had a window frame that had been chewed causing sharp edges. The floors, doors and surfaces of kennel runs must be kept in good repair to prevent injury to the dogs contained in them. Repair or replace these floors, door and window frame.

This inspection and exit interview were conducted with a facility representative.
