3.13(a)(1)

Veterinary care for dogs.

The licensee's representative could not provide documentation of when the last visit was conducted by the attending veterinarian of the premises. Regularly scheduled premise visits are essential in determining if all aspects of animal care (nutrition, health, environment, water, and air quality, etc.) are being provided to the dogs. The licensee must have regularly scheduled visits, not less than once every 12 months, by the attending veterinarian to the facility where animals are kept, to assess and ensure the adequacy of veterinary care and other aspects of animal care and use.

3.13(a)(2)

Veterinary care for dogs.

The licensee's representative could not provide documentation of when the last physical examinations of the adult dogs were done. Failure to have each dog examined at least once every 12 months may result in delay of treatment and diagnosis for disease, illness, or injury. Correct by ensuring that a complete physical examination from head to tail of each dog by the attending veterinarian is conducted not less than once every 12 months.
