3.1(a) Critical

Housing facilities, general.

On March 20th, 2025, a 3 year old female shih tzu/chihuahua mix went missing. This was an outdoor dog that was housed in a barn, but had access to leave the barn whenever it wished. The licensee was unable to immediately find the dog. On April 11th, 2025 the dog was found deceased in a horse pasture. The cause of death is unconfirmed. Not housing the dog in a facility in which it contains the dog securely doesn't ensure the safety of the dog. All dogs must be kept in a housing facility that protects and contains the dog securely. Correct starting on 6/16/25.

This inspection and exit interview were conducted with the licensee.

End of report.
