Customer ID: **327617**

Certificate: **35-A-0425**

Site: 001

J&AAcres LLC

Type: ROUTINE INSPECTION

Date: 20-AUG-2025

2.40(a)(2)

Direct

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A female Shih Tzu born 7/4/23 (microchip ID # 900215005361790) was lethargic, had somewhat labored breathing, and had diarrhea. The licensee observed and isolated the dog last night, but had not contacted the attending veterinarian. Not contacting the Attending Veterinarian and treating per his/her instructions doesn't ensure the dog is receiving adequate veterinarian care. The dog is displaying symptoms indicating it is in some sort of distress and is in need of medical treatment. The attending veterinarian must be contacted and treated per his/her instructions. Correct starting on 8/20/25.

Note: The attending veterinarian was contacted and treated during inspection.

This inspection and exit interview were conducted with the licensee.

End of report.
