#### 3.1(e)

##### Housing facilities, general.

During inspection it was found that dog food bags were stored in the shop away from the wall but directly on the concrete floor. Storing food directly on the floor makes it so there is a higher risk of pest infestation and there is less ability to clean around and under the stored food.  
All food and bedding supplies must be stored away from the walls and off the floor. All open supplies of food and bedding must be kept in leakproof containers with tightly fitting lids to prevent contamination and spoilage.  
Correction Date: January 6th, 2024

This inspection and exit interview were conducted with a facility representative.
