Type: ROUTINE INSPECTION
Date: 03-OCT-2024

3.1(c)(3)

Housing facilities, general.

Four of the whelping enclosures have not been getting a regular daily spot clean and had soiled material in the middle of them. A daily spot clean of hard surfaces dogs can touch helps provide for their comfort and wellbeing by keeping their living areas free from soiled material. A daily spot clean is required for all hard surfaces that dogs can contact and often enough in soft bedding to prevent dogs from contacting waste. Ensure to maintain a routine of daily spot cleaning for the whelping enclosures and for all hard surfaces that dogs contact.

***To be corrected from October 4, 2024 forward.

This inspection and exit interview were conducted with a facility representative.
