Type: ROUTINE INSPECTION
Date: 03-DEC-2024

3.10(a)

Watering

Five 10-week-old yellow Labrador Retriever puppies did not have water available to them. The puppies were given water at 9:30 am and on inspection at 1:30 pm the water bowl was upside down. The puppies were immediate given water and some did not drink while others drank normally. Potable water, essential for the health and wellbeing of these rapidly growing puppies, must be continuously available.
Correction date: December 3, 2024

This inspection and exit interview were conducted with the licensee.
