

Inspection Report

Gail McGonigal
526 Lawrence Rd. 543
Alicia, AR 72410

Customer ID: **14952**
Certificate: **71-B-0164**
Site: 002
GAIL MC GONIGAL

Type: RE-LICENSE INSPECTION
Date: 12-JUL-2023

3.13(a)

Veterinary care for dogs.

The Program of Veterinary Care (PVC) presented at time of inspection did not have a plan for vaccinating for Parvo-Distemper for adult dogs, mention the sampling and treatment of parasites (including fleas, worms, coccidia, giardia and heartworm) nor did it include a schedule for their sampling. It did not mention a schedule for when preventative care and treatment (including eyes, skin, teeth, and nails) would occur.

An appropriate PVC must include a plan to vaccinate for Parvo-Distemper, sampling for parasites, and include a preventative care plan. An appropriate PVC must be developed and followed to ensure the health and well-being of the dogs.

The applicant must add to the PVC: a plan for vaccinating for Paro-Distemper, a plan for having the dogs sampled for parasites, and a schedule for preventative care. The applicant must also have available documentation to demonstrate that the PVC is being followed.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by September 8th, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
