Date: 12-FEB-2024

3.13(b)(3)

Veterinary care for dogs.

There were no records indicating the date(s) the canine parvovirus and distemper vaccines were last administered to the adult dogs. Failure to maintain names and dates of all vaccines and treatments administered makes it difficult to evaluate when these vaccines were last given. Licensee must ensure that records are maintained for all vaccines and treatments administered and the dates of administration. Correct by February 17, 2024.

This inspection and exit interview were conducted with the licensee.
