Type: ROUTINE INSPECTION
Date: 05-DEC-2024

3.13(a)(3)

Veterinary care for dogs.

The facility is not following the program of veterinary care for vaccinations. The program of veterinary care currently prescribes dogs will be vaccinated for Distemper, Parvovirus, and Leptospirosis annually. All 18 adult dogs currently housed at the facility were not administered the DAPPL2 (7-way) vaccine in 2024 and are overdue per the program of veterinary care. Failure to follow the preventative care schedule for vaccinations in the program of veterinary care does not ensure the dogs are receiving appropriate protection against contagious and deadly diseases such as distemper, parvo, leptospirosis, and rabies which can lead to illness and discomfort to the dogs. The facility must follow the vaccination schedule approved by the attending veterinarian in the program of veterinary care to protect the dogs from deadly or contagious diseases.

Correct by 19 December 2024

This inspection and exit interview were conducted with the facility representative.
