

Inspection Report

J&L Farms
N13572 Sterling Ave
Withee, WI 54498

Customer ID: **6003073**
Certificate: **35-A-0483**
Site: 001
J&L Farms

Type: ROUTINE INSPECTION
Date: 05-SEP-2023

3.13(b)(1)

Veterinary care for dogs.

The medical records do not contain the identity of the two dogs whose stool samples were collected and tested for intestinal parasites on April 21, 2023. Not knowing the identity of the dogs cannot ensure that the correct dog will receive any necessary treatment. The licensee must complete and maintain updated medical records including the identify of the dogs being tested at the facility. Correct by September 6, 2023.

3.13(b)(3)

Veterinary care for dogs.

The licensee has not been recording the names and dates of the vaccines and deworming treatments being administered to the adult dogs in the kennel. Failure to list the names and dates of all vaccines and deworming treatments administered makes it difficult the access the animal care program. Licensee must ensure that medical records are kept with the names and dates of all vaccines and treatments administered to the adult dogs. Correct by September 6, 2023.

This inspection and exit interview were conducted with the Licensee.
