Contingency planning.

The licensee does not have a contingency plan for their facility. Lack of contingency planning does not ensure that adequate and appropriate care will be provided to the animals in the event of an emergency or disaster. The licensee must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the health and well-being of the animals in their possession). Correct by May 22, 2023

This inspection and exit interview were conducted with the licensee.
