MARLIN DIBBET
4129 Hickory Avenue
SIOUX CENTER, IA 51250

Customer ID: **500893**
Certificate: **42-B-0299**
Site: 001
MARLIN DIBBET

Type: ROUTINE INSPECTION
Date: 12-JUL-2023

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

* An approximately six year old, male white Bichon (I.D. # 841622600) was observed holding it's left front paw up and was non-weight bearing. Upon closer inspection one nail was long, but there was no visible injury. The license indicated he noticed it a few days ago but had not documented the injury nor did he contact a veterinarian. A non-weight bearing limb is indicative of possible injury or infection and is painful.

This animal needs to be seen by a veterinarian. The outcome of this consultation must be documented and provided to the inspector upon request. The licensee must ensure that all animals receive adequate veterinary care at all times.

To be correct by: 17-July-2023.

* A female Shi Tzu (Id # 601-012-257) located in pen # 30 has an excessive build up of brownish organic matter on the top and bottom of the back teeth. This buildup completely covered the teeth and was pushing up into the gums. A build up of abnormal material on the teeth can be painful, impact the ability to chew and affect the overall health of the animal.

The licensee must have this dog examined by a veterinarian and documentation of diagnosis and treatment available upon request. As indicated per the Program of Veterinary care a maintenance plan for dental care must also be adhered to.

To be corrected by: 19-July-2023.

This inspection and exit interview were conducted with the facility representative.
