3.13(b)(4)

Veterinary care for dogs.

The Licensee was unable to provide documentation for examinations performed by the Attending Veterinarian for a female Havapoo (#901001000065728). The Licensee stated that the animal was observed to be small in size and they notified their attending veterinarian who examined the animal twice but could not provide records regarding these examinations. Failure to document results of examinations performed may interfere with the ability of APHIS officials to determine if the animals are receiving adequate veterinary care. Medical records must be maintained and include the dates and findings/results of all screening, routine, or other required or recommended test or examination. Correct by documenting the results of all examinations and ensure that medical records are complete and contain the required information. Correct by 11-DEC-2024.

This inspection and exit interview were conducted with the Licensee.
