

Inspection Report

NATHAN OTTO
E 16408 Grimm Rd
HILLSBORO, WI 54634

Customer ID: **507841**
Certificate: **35-A-0468**
Site: 002
Nathan Otto

Type: ROUTINE INSPECTION
Date: 02-OCT-2024

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Fenbendazole was stored with the medications, had an expiration date of 05-2024 and had been used for a litter of puppies in July 2024 for deworming. The use of expired medications might not protect the animals it is used on as intended. Ensure that expired medications are properly discarded and not used on regulated animals.
***To be corrected from 10/2/2024 forward.

3.8

Exercise for dogs.

The current written Exercise Program was approved/signed by the previous attending veterinarian (AV). To ensure dogs are provided adequate space and exercise per the AV's guidance, a written exercise program must be approved by the current AV. Ensure that a written exercise program is reviewed and approved by the current AV.
***Correct by November 8, 2024.

3.13(a)

Veterinary care for dogs.

The facility has an attending veterinarian with regularly scheduled visits that has oversight of the medical care of the animals and has completed physical exams of each dog, however the written program of veterinary care (PVC) that was developed and signed by the current attending veterinarian (AV) was not available for inspection. A written PVC that is signed by the current AV is required and is important for the facility to have as a resource for care questions such as but not limited to vaccine and deworming schedules. Ensure to obtain and maintain a written PVC that is signed and approved by the current AV.
***Correct by November 8, 2024.

This inspection and exit interview were conducted with facility representatives.
