3.1(e)

Housing facilities, general.

The open supplies of puppy food and bedding, in the area adjacent to the office, were not being kept in containers with tightly fitting lids. The container for the puppy food did not have a lid, and the open bag of shavings were being stored in their original plastic packaging.

It's important to store open supplies of food and bedding in containers with lids to ensure that they do not become contaminated, lose their nutritive value, or attract pests.

All open supplies of food and bedding must be kept in leakproof containers with tightly fitting lids to prevent contamination and spoilage.
