2.53

Use of tags.

In reviewing records, it was found that tag #72 had been used on a breeding dog that was transferred to another facility on 1/8/2024 and then was re-used on another recently acquired dog. Using the same tag number to identify more than one animal can make animal husbandry records confusing and difficult to know which animal the number refers to. No tag number shall be used to identify more than one animal. No number shall be repeated within a 5-year period.
***Correct by 1/11/2024.

3.13(a)(2)

Veterinary care for dogs.

Per the licensee, the last time physical exams for each adult dog done by the Attending Veterinarian (AV) was January 11, 2023 (a year ago). The AV confirmed today on the phone that in December 2023 the licensee had health certificate physical exams done for seven adult dogs, however physical exams for each adult dog in the kennel weren't done. A complete physical examination from head to tail of each dog by the attending veterinarian at least every 12 months is required for each dog on hand to ensure that each dog is healthy. Ensure that the physical exams for each dog on hand are completed at least once every 12 months.
***Correct by March 8, 2024.

This inspection and exit interview were conducted with the licensee.
