3.13

Veterinary care for dogs.

The facility has record of regular attending veterinarian visits and a written program of veterinary care (PVC) that is signed and approved by the attending veterinarian, however the approved PVC does not include a plan for complete physical exams from head to tail of each dog by the attending veterinarian and a plan for sampling of parasites. Yearly physical exams of each dog in the kennel and a plan for sampling of parasites are now required for optimum health of dogs. Ensure that the written PVC addresses physical exams and parasite sampling as approved by the attending veterinarian.

Correct by 2/26/2022.

This inspection and exit interview were conducted with a facility representative.
