3.13(b)(3)

Veterinary care for dogs.

The Licensee does not maintain complete medical records for all adult dogs. Records indicate that 6 adult dogs have no vaccination history:

- Adult F Yorkie #1975, Adult F Pomeranian # 4410, Adult F Pomeranian #6319, Adult F Maltese #0179, Adult F Shih Tzu #6244, and Adult F Shih Tzu #9271.

The licensee states that the animals are up to date for these vaccines but they did not record that information in the medical record. Failure to maintain adequate medical records may interfere with the ability of APHIS officials to determine if the animals are receiving adequate veterinary care. Complete medical records must be maintained and include the names of all vaccines and treatments administered and the dates of administration. Correct by documenting all treatments given and ensure that medical records are complete and contain the required information. Correct by 12-DEC-2024.

3.13(b)(4)

Veterinary care for dogs.

The Licensee was unable to provide documentation of heartworm tests performed. The Licensee stated that heartworm tests were performed on all adult dogs in April 2024 but could not provide the test results. Failure to document testing results may interfere with the ability of APHIS officials to determine if the animals are receiving adequate veterinary care. Medical records must be maintained and include the dates and findings/results of all screening, routine, or other required or recommended test or examination. Correct by documenting the results of all testing and ensure that medical records are complete and contain the required information. Correct by 12-DEC-2024.

This inspection and exit interview were conducted with the Licensee.
