Time and method of identification.

The licensee is not properly identifying puppies that are less 16 weeks old. Fifteen puppies that were from four separate litters did not have any form of identification. Appropriate identification of dogs is necessary to meet record keeping requirements for inventory, disposition, transport, and healthcare documentation. The licensee must properly identify puppies with an acceptable form of identification, which include a cage card (if litters are not comingled), a microchip, a collar and tag, or a plastic-type collar with required information legibly written.

2.75(a)(2)

Records: Dealers and exhibitors.

Licensee did not use the record of disposition of dogs (APHIS form 7006) for at least 22 dogs sold since last inspection. Properly completed disposition records are necessary to facilitate record-keeping requirements for disposition, transport, and tracing of the dogs. The licensee must complete the proper records for disposition of adult dogs and puppies.
