3.13(a)(3)

Veterinary care for dogs.

The licensee is not following the vaccination protocol outlined in the Program of Veterinary Care. The licensee has been administering the distemper and parvovirus vaccines on an earlier schedule than what is listed in the PVC. Failure to provide vaccinations on the schedule approved by the Attending (AV) cannot ensure that adequate and proper veterinary care is being provided. The licensee must administer the distemper and parvovirus vaccines on the approved schedule or work with the AV to revise the vaccination schedule. The AV must approve any changes to the vaccination schedule. Correct by October 6, 2023.

This inspection and exit interview were conducted with the licensee.
