Site: 002  
MICHAEL L. TROYER

Type: ROUTINE INSPECTION  
Date: 03-DEC-2024

---

#### 3.13(b)(3)

##### **Veterinary care for dogs.**

The facility does not have medical records for vaccinations and preventative care given. The licensee reports all adult dogs had the required rabies, distemper, and parvovirus vaccines in Spring 2024, along with deworming, but there is no written record. Medical records are important so that adequate veterinary care can be assessed during inspections. Correct by ensuring copies of medical records, complete with the names of all vaccinations and treatments administered and the dates of administration, and the identification of the dog are created and maintained and are made available during inspection. Correct from December 3, 2024, onward.

This inspection and exit interview were conducted with the licensee.
