Type: ROUTINE INSPECTION  
Date: 10-OCT-2024

---

#### 3.11(a)

##### **Cleaning, sanitization, housekeeping, and pest control.**

One adult dog's outdoor run had waste that hadn't been cleaned out daily. A daily spot clean of hard surfaces that dogs can touch is important to keep their living space clean and comfortable. Excreta and food waste on hard surfaces that dogs can contact must be removed from primary enclosures daily. Ensure that a routine of daily spot cleaning waste from hard surfaces that dogs can touch is put into place and maintained.

\*\*\*Correct from 10/10/2024 forward.

This inspection and exit interview were conducted with a facility representative.
