Certificate: **34-A-0223**
Site: 001
ALVIN & IRENE ZEHR

Type: ROUTINE INSPECTION
Date: 13-DEC-2021

2.75(a)(2)

Records: Dealers and exhibitors.

There is a litter of puppies from female dog with id #6 that has no cage card. The puppies were born 5 days ago. All cage cards do not contain the license number and females id.

Each dealer and exhibitor shall use Record of Acquisition and Dogs and Cats on Hand (APHIS Form 7005) and Record of Disposition of Dogs and Cats (APHIS Form 7006) to make, keep, and maintain the information required by paragraph (a)(1) of this section.

Cage cards must be made in a timely manner. All required information must be on each cage card.

To be corrected by December 14, 2021

3.1(a) **Critical**

Housing facilities, general.

One of the female dogs with a litter of puppies was moved to the holding side of the kennel instead of the whelping side.

One of the puppies with id 40-21 was able to crawl out of the kennel through a gap at the floor and was bitten by a dog in the next kennel.

Inspection Report

Housing facilities for dogs must be designed and constructed so that they are structurally sound. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering.

All dogs and puppies must be contained to prevent injury.

To be corrected from December 13, 2021 forward

3.6(a)(2)(ix)

Primary enclosures.

There are a couple of doggie doors that have been chewed by the dogs.

Primary enclosures must be constructed and maintained so that they: Enable all surfaces in contact with the dogs and cats to be readily cleaned and sanitized.

Chewed areas of the doggie doors cannot be properly sanitized to protect the animals from odor and disease hazards.

To be corrected by December 17, 2021

3.11(b)(3)(iii)

Cleaning, sanitization, housekeeping, and pest control.

The licensee is not using any cleaner prior to sanitizing the kennel. The licensee is using water only prior to using bleach to sanitize the kennel.

Inspection Report

Hard surfaces of primary enclosures and food and water receptacles must be sanitized using one of the following methods: Washing all soiled surfaces with appropriate detergent solutions and disinfectants, or by using a combination detergent/disinfectant product that accomplishes the same purpose, with a thorough cleaning of the surfaces to remove organic material, so as to remove all organic material and mineral buildup, and to provide sanitization followed by a clean water rinse.

A cleaner to remove all organic materials must be utilized prior to using a disinfectant.

To be corrected December 13, 2021 forward

3.13

Veterinary care for dogs.

The facility is not following the current veterinary care requirements for dogs.

Each dealer must follow an appropriate program of veterinary care (PVC) for dogs that is developed, and documented in writing by the attending veterinarian. Medical records must be kept to document all of the requirements of Standard 3.13 of the Animal Welfare Act.

A PVC with all required information must be obtained from the attending veterinarian.

To be corrected by December 20, 2021

This inspection and exit interview were conducted with the licensee.
